CAREER OBJECTIVE

Aspiring AI & Data Analytics Professional seeking an entry-level role in Data Analytics, Business Intelligence, AI/ML, or Data Science to apply expertise in Python, SQL, Power BI, Machine Learning, Deep Learning, NLP, Computer Vision, and Generative AI. Committed to leveraging hands-on experience from 6+ end-to-end projects to deliver data-driven solutions, actionable business insights, and continuous innovation that contribute to organizational success.

EDUCATION

Secondary (X), Heritage Public School CBSE	2022 – 2023
Senior Secondary (XII) (Science), Heritage Public School CBSE	2024 – 2025

ADDITIONAL TRAINING

Artificial Intelligence Programming Assistant DGT, Microsoft And Edunet Foundation - NSTI	09/2025 – 07/2026 Ludhiana
Training Highlights: • Learned to analyze, visualize, and derive business insights from data using Python, SQL, and BI tools. • Gained strong foundations in computer systems, operating systems, Python programming, and database management. • Built practical skills in AI, machine learning, deep learning, NLP, and computer vision for real world applications. • Developed end to end AI solutions using Generative AI, GitHub collaboration, and Streamlit deployment.	

SKILLS

Programming Languages Python, SQL	Data and predictive analysis Pandas, NumPy, Advance Excel, EDA, Statistics	Data Visualization & BI Power BI, Matplotlib, Plotly, Seaborn
Database Management System (DBMS) MySQL, Database Concepts	Machine Learning Scikit-learn, Regression, Classification, Clustering	Deep Learning TensorFlow, Keras, ANN, CNN, LSTM
Natural Language Processing (NLP) NLTK, Sentiment Analysis, Text Preprocessing	Computer Vision OpenCV, Object Detection, Image Classification	Generative AI Large Language Models (LLMs), Prompt Engineering, Microsoft Copilot
MS-Office Ms Excel, Ms PowerPoint, Ms Word	Soft Skills Analytical Thinking, Problem Solving, Communication, Team Collaboration	

PROJECTS

GridPulse AI – AI-Driven Smart Building Energy Optimization

- Developed an AI-powered energy optimization system using Python, SQL, LightGBM, Isolation Forest, Power BI, and Streamlit to forecast energy consumption and detect anomalies.
- Designed interactive, real-time business dashboards providing actionable operational insights that optimize building resource allocation.
- Project Link : <https://github.com/WinjeetSingh/GridPulse-AI-Energy-Optimization> 
- Live Demo : <https://gridpulse-ai-energy-optimization.streamlit.app/> 

Heart Risk Prediction

- Engineered a predictive machine learning model using Python and Scikit-learn to classify and determine heart disease risk scores.
- Executed complete data preprocessing, rigorous feature engineering, and predictive analytics to improve clinical decision-making metrics.
- Project Link : <https://github.com/WinjeetSingh/Heart-Attack-Risk-Prediction-Machine-Learning-Approach> 

Aspect-Based Sentiment Analysis

- Built an NLP-based sentiment analysis system using Python to extract aspect-specific consumer opinions from unstructured text.
- Implemented comprehensive text preprocessing pipelines and tokenization steps to classify customer sentiment for business insights.

Inventory Management System

- Developed a database-driven inventory management system using Python and MySQL to automate inventory tracking, manage product records, and perform efficient CRUD operations.

GridPulse AI Dashboard

- Developed an interactive Power BI dashboard to visualize energy consumption patterns, monitor operational KPIs, and forecast consumption trends.
- Integrated anomaly detection parameters within the visualization suite to drive data-driven decision-making and business intelligence.
- Project Link : <https://github.com/WinjeetSingh/GridPulse-AI-Dashboard> 

ACHIEVEMENTS

Certificate of Achievement – Outstanding Performance in Computer Vision Project (OmniCanvas AI – Interactive Panoramic Whiteboard & Smart Presenter)

Edunet Foundation, Microsoft, NSTI Ludhiana, DGT (AIPA Program)

Certificate of Achievement – Outstanding Performance in Power BI Mini Project (Hotel Booking Analysis)

Edunet Foundation, Microsoft, NSTI Ludhiana (AIPA Program)

CERTIFICATIONS

Career Essentials in Data Analysis

Microsoft and LinkedIn, 2026

Prepare Data for Analysis with Power BI

Microsoft and LinkedIn, 2026

Clean, Transform, and Load Data in Power BI

Microsoft and LinkedIn, 2026

Query and Modify Data with Transact-SQL

Microsoft and LinkedIn, 2025

Create Machine Learning Models

Microsoft and LinkedIn, 2025
